APPLYING TO GRAPHCORE

!

!

!

! DO YOUR RESEARCH

You'll need to be able to describe what we do, and understand who our customers and competitors are. Learn about our culture and the job requirements. Think about whether this fits with your own aspirations.

Follow us on social media:

<https://twitter.com/graphcoreai>

<https://www.youtube.com/graphcore>

<https://www.linkedin.com/company/graphcore/>

<https://www.facebook.com/graphcoreai/>

!

!

! PREPARE YOUR CV

This is your chance to showcase your experience to date. Include your academic information – attaching transcripts is always a good option. Don't be afraid to talk about your achievements, any project work or work experience, and the skill set you have developed.

!

!

! RECRUITMENT PROCESS

Due to the nature of the role, there will be a technical element. This is not to test you, but to help us understand your technical ability. We will provide guidance and, where possible, coach you during the interview. Remember your approach can be just as insightful as the answer you give. !
